

uVme'Gram 07-07-24

Please note :

For a better uniformity of the various Languages in our worldwide team, we have changed the name EVO'Brief to uVme'Gram (analogy to Tele'gram) which reflects the synthetic aspect of those specific communications.

1. Preamble : Our Team

As you know by now the company has come out with the great name uVme, that stands for "You Versus Me".

The leaders within our team will identify a strong name and strong image for our

Team !

Also, do NOT assume that your downline has received the emails.

We receive every day emails from people begging for help and support.

FORWARD EVERY EMAIL and other communication that you receive to AT LEAST ALL your personal members.

2. uVme site update

Please note that the uVme website shows clearly "uVme BETA", next to the login area. The company is working hard to finish the upload and fixing of the so many bits and pieces that compose the new uVme site.

Most pages have already been translated into French, and more languages will follow soon.

Remember that being in pre-launch, we are working on a construction site, feet in the mud and concrete.

This is the price to pay to be a pioneer and "catch the world in our net"

You can find the latest info on the site update in the "News" section of the uVme back-office.

3. Web conference

Do we need to remind everyone that attending the conferences, be it Presentation or Training is of utmost importance ?

It is important for :

- a. Showing the prospects that the team is active
- b. How would you feel, as a prospect or even as a Team member, to not see your sponsor at the conference ?

In this issue :

1. Preamble : Our Team
2. uVme site update
3. Web conference
4. Spanish Presentation
5. Training Rooms
6. Payplan PPT

- c. It is where you can get updates and information which will increase your knowledge about the uVme concept and opportunity. If you keep yourself and your team members in the dark, it means no progress for anyone.
- d. It is where YOUR motivation strengthens :
"People often say that motivation doesn't last. Well, neither does bathing - that's why we recommend it daily" *Zig Ziglar*.
- e. Attending Team conferences increases Team gel, Synergy and Team Unity, which is essential for everyone's success.

Be there, take note, participate and support the Team !
Access from our team site : <http://www.uwme.net>

4. Spanish Presentation

In the development of our global Team we will start presentations in Spanish as of next week. The exact date and time will be announced and published on our site <http://www.uwme.net>. Therefore we now have presentations in English, French, Portuguese, German, Dutch, Italian and now Spanish

5. Training Rooms

The trainings are for our Team members only !
At the moment French trainings are running. Other languages will be announced soon.

The reason is simple :

We want to give full priority to training our partners before spending time with people outside of our group. Training takes time and dedication. It is our Sponsor's and Leader's job to make sure that everyone who has desire and is dedicated to achieving success with uVme receives the training that will help them to reach their goals.

Our training rooms are password protected, anyone outside of our group will be ejected.

We call it ***Team Spirit*** !

6. Official Company approved Payplan Powerpoint

You can now download and use freely the new PayPlan powerpoint approved by the company.

You can download it from : <http://www.uwme.net/en/doc-en/uvme-payplan-en.ppt>

Your dedicated Leaders will have it translated into all the languages that we support as of now, and we will pass the links in our next uVme'Gram

We take the opportunity to Thank and Congratulate all those Leaders for their help and support in making it possible to have so many languages officially available to everyone in our team.

Nevertheless this powerpoint presentation does NOT REPLACE the Web conference presentations !!! Don't fall in the trap...

Your dedicated Leadership with you in success
